HEIDELBERG TECHNICAL SCHOOL YEARS 1973-1977

The black and white image of Heidelberg Technical School below is not so fitting – It was a colourful place and gave to their willing students far more than a Factory Fodder Future. I found it a great place to lean with some exceptions [1]

[1] Heidelberg Technical School opened in temporary accommodation in 1954, moving into a new building on the corner of Bell Street and Waterdale Road the following year. In 1989 declining enrolments led to a merger with Heidelberg High to form Banksia Secondary College. Separate campuses were maintained while the Heidelberg High site in Banksia Street was refurbished. This was completed by 1991 and the Bell Street campus was closed. Northern Melbourne Institute of TAFE (NMIT) acquired the site and its Manufacturing; Engineering and Building Industry Training Centre was opened in 1994.

[redacted]

Dear Sir,

I am pleased to advise that the Board has approved your application for registration as a painter and has allotted you the number .....3207.....

The following items are now relevant:-

1. The Painters' Registration Act requires every registered Painter to exhibit a sign showing his name and registered number on all works under his control while painting is in progress. Such a sign is to be erected irrespective of the value of the work and the size of the letter and figures should not be less than 50 millimetres in height.

   The inclusion of the Painter's name and number in paint manufacturers' advertising boards is not acceptable.

2. A certificate of registration is being prepared and will be sent to you in due course.

3. The fees shown below are payable by return mail. Kindly detach the relevant portion and forward it with your remittance.

Yours faithfully,

MR JOHN GUEST
LEEDERVILLE TAFE CAMPUS

Dear John

I believe you have recently completed your final assignment in the B.A. (TAFE) course dealing with the impact of technological change on employment and training in your occupational field.

Feedback from the Faculty of Education at Curtin University, has indicated that your work is of such a quality that it may be useful for it to be circulated throughout the TAFE system. Should you be willing to do so, I would appreciate you providing a copy of your work to Mr David Lloyd in TAFE's Strategic Initiatives Unit in order that the Department can assess your findings and implement any initiatives as appropriate.

Once again, congratulations on completing your course and I look forward to your continuing contribution to the TAFE system.

Dear John

As you are aware, a specially convened Board of Examiners reviews the results obtained by students each semester. During its meeting to consider results from second semester this year, the Board asked me to congratulate you on your performance since the results you obtained placed you amongst the top five per cent of students in your course. This is a very considerable achievement.

I would like to add my personal congratulations and wish you every success.
